Medication Administration Form

Purpose: In order to assure the health and safety of students, this form needs to be completed. A student will only be given medication during school hours, when it is properly prescribed, by a licensed health care provider and requested by a parent.

Procedure: Provide the following for Health Services:

1. A licensed Health Care Provider's Order (DDS, MD, NP, PA).
2. Parent/Guardian request for medication administration.
3. The medication-supplied in the original bottle (ask pharmacist to divide prescription into two bottles) completely labeled-one for school and one for home.

Student Name: _____ Birthdate: _____ Grade: _____
